EDUCATION

Bina Nusantara University

Sept, 2024 - Present

Bachelor of Computer Science – Data Science

Cumulative GPA: 3.29/4.0 (4th Semester)

SMK Strada Jakarta

2022 - 2024

Teknik Informatika Pemograman (TIP)

WORK EXPERIENCES

Internship at the DKI Jakarta Regional Office of the Ministry of Law and Human Rights

Jun – November 2023

The PKL (Praktek Kerja Lapangan) program at the Ministry of Law and Human Rights of DKI Jakarta (Kemenkumham) offers valuable experience in the legal and administrative

- Created an Inventory Website Project for a division
- Assisted employees with technology and networking

PROJECTS

Low-Light Street Image Enhancement

Jun 2026

Deep Learning Project (Team of 5 members)

- Built a convolutional autoencoder with skip connections (U-Net-style, ~7.9M parameters) in TensorFlow to enhance brightness and visibility in low-light street images, trained on 8,000 image pairs from the LoLI-Street dataset.
- Designed a custom combined MAE-SSIM-Perceptual loss function (VGG16-based) and achieved 31.19 dB PSNR and 0.9576 SSIM on a 3,000-image validation set, outperforming classical baselines (Histogram Equalization, CLAHE, Gamma Correction) by up to 3x in PSNR.
- Applied EarlyStopping, ReduceLROnPlateau, and model checkpointing across 33 training epochs to stabilize training and prevent overfitting.

Juni - Nov 2023

Inventory & Attendance Management System

PKL | Kementerian Hukum dan HAM (Team of 6 Members)

- Developed a web-based Inventory and Attendance Management System with full CRUD functionality using HTML, CSS, JavaScript (ReactJS), and MySQL.
- Built and managed data input forms, database operations, and display logic for both the inventory and attendance modules.
- Collaborated with the development team to test, debug, and improve system usability throughout the internship.

April 2026

Student Placement and Salary Prediction with ML Model Deployment

- Built end-to-end machine learning pipelines using scikit-learn to predict student placement outcomes and salary, covering EDA, feature engineering, and model comparison.
- Tracked experiments and model versions using MLflow to compare model performance across runs.
- Deployed the trained model as a REST API with FastAPI and built an interactive Streamlit frontend for real-time predictions.

ORGANIZATIONAL EXPERIENCE

Data Science Club

- **Head of Department Human Capital** **Jan 2026 - Present**
 - Led the Human Capital department, overseeing the HRD sub-division (Spark and Survey Corps) and the Event Organizer (EO) sub-division (Event and Organizer) to support member development and event execution across the club.
- **Outventure DSC 2026: Thrive as One | Event Chair** **April 2026**
 - Led the planning and execution of Outventure DSC 2026, an outdoor gathering event for Data Science Club (DSC) members at Rivera Outbound and Edutainment, designing collaborative activities to strengthen teamwork and community bonds.
- **Data-Driven Careers: Opportunities in the Age of AI | Treasurer** **October 2025**
 - Managed the full budget and financial operations for the DSC seminar "Data-Driven Careers: Opportunities in the Age of AI," from planning through post-event reporting.
- **Data Science Club Olympiads | Event Division** **July 2026**
 - Served as Master of Ceremony (MC) for DSCO event and contributed to broader event-division responsibilities supporting the organization and execution of club activities.

HIMTI

- **Director & Technical Coordinator | TECHFEST 2025** **July 2025**
 - Led technical operations and event planning for TECHFEST 2025, supervising technical teams and coordinating cross-division workflows.
 - Managed stage, sound, and live-streaming systems across multiple venues, resolving issues in real time to ensure smooth, professional execution.

HONORS & AWARDS

- **Best Staff of DSC BINUS University - Quarter 1 & 2** **July 2026**
- **Best Activist of DSC BINUS University (25/26) - Quarter 2** **Dec 2025**

CERTIFICATES

- **Classifying Data Using IBM Granite** **May 2025**
- **Fundamentals of Deep Learning** **March 2025**

SKILLS

- **Programming Languages:** Python, SQL, HTML, CSS, ReactJS, ReactNative, PySpark, C
- **Soft Skills:** Leadership, Analytical Thinking, Problem Solving, Communication, Teamwork, Adaptability
- **Technical Skills:** Machine Learning, Deep Learning, Data Preprocessing, Exploratory Data Analysis, Data Visualization, Model Evaluation, Microsoft Office, Deployment
- **Languages:** Native in Indonesian, Professional Fluency in English
